NOTE: Download all your support materials and tools in one place.

1. Go to: <http://www.digital-watchdog.com/resources>
2. Search your product by entering the part number in the **'Search by Product'** search bar. Results for applicable part numbers will populate automatically based on the part number you enter.
3. Click **'Search'**. All supported materials, including manuals and quick start guide (QSGs) will appear in the results.

INSTALLING THE MOUNTING ACCESSORY

- Using the wall mount, mark and drill the mounting holes on the surface using the ceiling mount flange.
- Pull wires through to connect to the PTZ camera from the ceiling.
- Using the plastic anchors and screws*, mount and secure the mounting bracket to the mounting surface.
- Open the access plate and pull out cables through the rectangular access hole.
- Attach the 1.5-inch adapter to the ceiling mount bracket and fix it using the set screw.
- Attach the camera's safety wire to the ceiling mount bracket and organize cables.
- Close the access plate of the ceiling mount bracket.
- Push in and turn the camera clockwise into the adapter. Fix it using the set screw of the adapter.
